

# Black Pearl

Solvent transfer paper

Black Pearl allows you to create professional transfers on dark garments. The nonwoven effect offers a high quality transfer paper solution.

## *printing instructions*

Print only on Solvent printers and offset printers with solvent, solvent light, mild solvent or eco-solvent inks. Recommended profile for Roland VersaCamm Series = Vinyl-SOFOGLP2, Print Standard (720x720)

## *application instructions*

Print the image onto the coated side of the rolls. Cut the outlines and remove the unprinted film. Place a tape foil onto the motive and rub with a squeegee to the image as well against the tape foil will be adhere. Fix the tape foil with the printed image onto the substrate, press for 30-35 seconds and peel hot.

## *heat press specifications*

**Black Pearl**

Solvent transfer paper

**30-35 Sec**

**190°C · 375°F**

**heavy pressure**

## *washing*

Turn the textile inside out and wash at max. 40° C/ 100° F. Do not bleach. Iron only on the reverse side or cover the transfer with a backing paper.
