

FREE

self-weeding
laser transfer paper

style

The laser one-step and self-weeding transfer paper solution for white and light colored garments.

Feel free to style!

characteristics

self-weeding · one-step process · different garments

FREE
style

is self-weeding and there is no need to trim the paper. The transfer paper works on various garments like cotton, cotton blends, 100% polyester and leather. Save production costs and time by using Free Style instead of screen printing and flex foils. The possibilities are almost unlimited.

copy and print features

for fuser oil-based & oil-free printers and copiers

FREE
style

runs without exception on all color copiers and printers which use fuser oil and most of oil-free machines.

easy handling · brilliant & soft hand

FREE
style

is designed to transfer isolated full color graphics, letters and numbers without trimming the paper. It only needs one step to transfer the image onto the garment. Free Style offers brilliant colors and soft hand without leaving any background coating film. For transferring square pictures we recommend to use Trans Royal max or Trans Royal inneo.

durability

high washability

FREE
style

offers high durability with no loss of color after washing the fabrics several times.
